Education

(2022-Now)

POSTS AND TELECOMMUNICATIONS INSTITUTE OF TECHNOLOGY (PTIT)

- **Major:** Multimedia Application Development
- **Current GPA:** 3.06 / 4.00

Projects

(Aug 2025-Present)

Sports-store

Personal Project

Deploy: sports-store-one.vercel.app

github.com/nguyenvanhop0410/sports_store.git

- Built a sports e-commerce web app with ReactJS, including product browsing, cart, checkout, and order tracking.
- Integrated Node.js/Express REST APIs with JWT authentication and localStorage cart persistence.
- Developed admin features for product CRUD, order management, and dashboard statistics.

(Dec 2025 - Present)

Student & Class Management Website

Team Project

github.com/Student-and-Class-Management-Website

- Built responsive frontend interfaces for a student and class management system using React, TypeScript, Vite, and Tailwind CSS.
- Developed role-based UI flows for admin, lecturer, and student, including dashboards, data tables, search, forms, and detail pages.
- Integrated REST APIs from a Node.js/Express and MongoDB backend, including JWT authentication and protected user flows.
